

# Certificate of Calibration

This document certifies that the equipment referenced below meets published specifications. The calibration procedure is in compliance with ISO 10012-1, and former MIL-STD-45662A and is traceable to NIST. Uncertainties are estimated at a 95% confidence level (K=2).

Model Number: 480E09 N.I.S.T Project #: 6720012  
Serial Number: 24648 Calibration Date: 05/18/2001  
Description: Signal Conditioner Recalibration Date: \_\_\_\_\_  
Test Procedure: AT-103-3 Calibration Technician: Pete Paddon  
Temperature: 72 F Relative Humidity: 48 %
